- 
- Dos (2) pruebas con instrucciones sencillas
  - La prueba está diseñada para usarse dos veces durante dos o tres días, con al menos 24 horas y no más de 36 horas entre pruebas.

RAPID RESULTS IN 

## KNOW BEFORE YOU GO

Providing employees test kits for home, helps them know before they go into the office and helps prevent outbreaks.

The antigen home test is authorized for nonprescription home use with self-collected anterior nasal (nares) swab samples from individuals aged 2 and older. This test is also authorized for nonprescription home use with self-collected (unobserved) direct anterior nasal (NS) swab specimens from individuals aged 14 years and older or with adult-collected anterior NS samples from individuals aged 2 years or older. The test to be used in individuals within 6-days of symptom onset or individuals without symptoms or other epidemiological reasons to suspect COVID-19 infection when tested twice over three days with at least 24 hours (and no more than 48 hours) between tests.

**Note - For Emergency Use Authorization (EUA) only. In vitro diagnostic use only. Included in the QuickVue At-Home OTC COVID-19 test:**

- Individually wrapped sterile foam swabs
